July 17, 2008

Dear Calculus Student

The school records show that you signed up for Calculus AB beginning in the fall. As you may know, the Calculus AB class is also the second year of IB Standard Level Math. Therefore there are a few topics we need to cover before the school year begins. Please visit my website at <http://bixler.syv-online.com/tbixler> and follow the link for Calculus AB Summer 2008.

There are three chapters from the IB Math book that you should master before the semester begins. There is a list of suggested problems to get you ready for the test. The test on those chapters will be the second week of school so we will only have time to do a two day quick overview of the topics before the test on the material. The suggested homework is not required, but if you do it, showing all of the appropriate work, it will be worth 10 test points for the first assessment.

In addition to doing this work please send an email to tbixler@syvuhdsd.org with Calculus 2008 in the subject line and your name and contact information in the body of the email. The email, correctly sent, will count as your first homework assignment.

I look forward to meeting you in the fall. Please enjoy the rest of your summer.

T Bixler
