

3. $(-3, 1)$ $(-8, 1)$ Slope = 0
 Distance = $\sqrt{5^2 + 0^2} = 5$

6.

Slope = $-\frac{1}{3}$

7. L is the line from A(2, -3) to B(-1, 3)

Slope = $\frac{6}{-3} = -2$

9. Horizontal $y = 3$
 Vertical $x = 2$

12. Horizontal $y = 0$
 Vertical $x = -\pi$

15. $y - y_1 = m(x - x_1)$ $y - 3 = 2(x - 0)$
